style

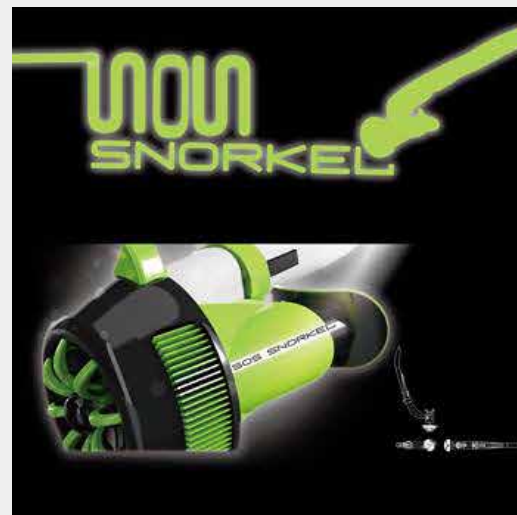

I am from Taiwan. the cultural difference is my weakness but also my strength. The cultural difference allow me to have more perspective of design.

I decide integrate Chinese elements into my website. The most difficulty I faced is how to bring traditional elements with modernity. I gave up the calligraphy logo design and replaced it with the type of style of seal. It provides a simpler and cleaner feeling.

color

I choose the colors with a lower chroma. It provides a calm and peaceful feeling.

the art works
I chose

modify

learn how to use mock up to beautily my art work.

fixed the code about API and greensock
